TARGET AUDIENCE

WHO SHOULD JOIN?

Sales Professionals

Add a high-ROI product to your book. Perfect for SDRs and AEs looking to monetize their existing network with zero fulfillment work.

Agency Owners

Upsell clients with recurring AI revenue. It's a sticky service that improves retention and solves the "speed to lead" problem for your clients.

Business Consultants

A quick-win offer for local SMBs. Implement an immediate solution that demonstrates value before pitching larger consulting packages.

Side Hustlers

Start part-time with no risk. Just **one client** covers your entire membership cost. Every sale after that is pure profit.

TARGET MARKETS

VERTICALS THAT CONVERT BEST

These industries have high lead value and urgent response needs. They are the easiest to sell to because the ROI is obvious.

LAW FIRMS

Lawyers lose thousands on missed calls. Potential clients call the next firm on the list if they don't get an answer. AI captures every lead instantly.

INSURANCE

Speed-to-lead is everything in insurance. The first vendor to respond usually wins the policy. Agents can't work 24/7, but AI can.

AGENCIES

Agencies generate leads, but their clients fail to follow up. This causes churn. Selling AI to their clients fixes retention and adds revenue.

FINANCIAL SVCS

High-trust purchases require instant engagement. Advisors are often in meetings. AI qualifies prospects and books appointments automatically.

B2B SAAS

Global buyers want answers now. AI handles initial questions and qualifies leads before the sales team even wakes up.

MED SPAS

High-ticket appointments. Missed calls mean lost revenue. AI fills their calendar automatically, reducing front-desk workload.
